Editor and DI Colorist

Creative and skilled 3D artist with hands-on experience in game design and 3D modeling. Known for a strong ability to develop visually engaging assets that enhance gameplay and bring concepts to life. Proficient in industry-standard tools and passionate about crafting immersive experiences that blend technical skill with creative vision.

WORK EXPERIENCE

3D ARTIST
PlayVRoom Studio
October2023 - June 2024

- I worked at Unity, where I gained a solid understanding of the platform's capabilities and features. My experience includes camera animation, terrain creation for visually immersive environments, and basic sound effects coding using C#. Additionally, I became proficient in using Jira for effective work reporting and project management.

TEXTURING DEPARTMENT HEAD
Maha movies
July2024 - January2025

- Specialized in texturing assets using Substance Painter and Designer.
- Applied advanced texturing techniques to enhance realism in virtual environments

Film Editor
Freelancer
February2025 - March 2026

- still working on film editing and digital intermediate (DI) artistry for a feature film, demonstrating strong storytelling and technical skills.
- Collaborated closely with directors and producers to achieve desired visual and narrative outcomes.
- Managed post-production workflows, ensuring timely delivery and high-quality output.
